Yes

No

Applicant's education

Please enter the details of your highest qualification level / degree (for example, BSc or MSc). If you are currently enrolled in a programme you haven't finished yet, please provide these details with the current date as the finish date.

12. University / institute name *

13. Degree level (e.g., BSc or MSc) *

14. Start date *

15. End date (if not finished yet, please choose current date) *

Motivation

16. Please describe your motivation for applying to the programme (<1500 characters, all entries in excess of this limit will automatically be truncated before evaluation) *

Research experience

Here, you can describe a research project that you have carried out in the past and the skills that you acquired. This could be a project as part of your degree programme or another research experience. If there is no previous experience, please fill in the following questions with 'N/A' or the current date (no previous research experience will not negatively affect your application)

17. University / institute name *

18. Start date *

19. End date (if currently ongoing, please choose current date) *

20. Short description (<300 characters, all entries in excess of this limit will automatically be truncated before evaluation) *

Skills

21. Please describe which programming languages you can use (and your level), any experience using astronomical software, and any other relevant technical skills (<300 characters, all entries in excess of this limit will automatically be truncated before evaluation) *

Previous workshops / research schools / conferences

22. If applicable, please list any workshops, research schools, or conferences that you have attended (<300 characters, all entries in excess of this limit will automatically be truncated before evaluation) *

Other achievements

23. If applicable, please describe any other academic highlights or achievements, for example, any awards or notes of recognition (<300 characters, all entries in excess of this limit will automatically be truncated before evaluation) *

Project selection

Indicate the project that you are interested in, with a short explanation of what motivated you to make this choice (you can find a description of each project here: <https://www.eso.org/sci/meetings/2023/SummerResearch2023/projects.html>). You can select a second project which would be your second choice in case your first choice is not available anymore. No motivation is required for your second choice.

24. Please select your first choice for a project *

A

B

C

D

E

F

G

25. Motivation (<250 characters, all entries in excess of this limit will automatically be truncated before evaluation) *

26. Please select your second choice for a project (no motivation required)

*

A

B

C

D

E

F

G

I'm only interested in one project (my first choice) and prefer not to participate in the programme should my first choice not be available

Referee contact details

Please add below the contact details of a referee. Make sure that a reference letter is submitted to applications4summerresearch@eso.org by the referee. The reference letter should include comments on your academic/research achievements to date. There is no strict template for these letters.

27. Name *

28. Email *

29. Referee's relationship to you *

Other information

30. If you have any other important information that is relevant to your application, please provide it here (<200 characters, all entries in excess of this limit will automatically be truncated before evaluation)

31. How did you find out about this programme? *

- Social media
- ESO Science Newsletter
- Shared by classmate/friend/colleague
- ESO website
- Email distributed in my institute
- Other

32. I certify that the information included is correct and truthful *

- Yes
- No
