

• Garching (Germany), 12—16 October 2009

DETECTORS FOR ASTRONOMY

- Detector technologies and design
- Detector manufacturing
- Detector evaluation and calibration
- Control electronics
- ASIC's
- Control software
- Detector systems
- Mosaic focal-plane arrays
- Cryo-vacuum technologies
- Instruments with very demanding and/or novel requirements on detectors
- Scientific applications and results that depend on high-performance detectors
- Test methodology and quality control
- Calibration of performance

• Scientific Organizing Committee:

D. Baade (co-chair)
J. Beletic (co-chair)
R. Campbell
D. Figer
G. Finger (co-chair)
J.-L. Gach
S. Miyazaki
P. Moore
G. Tarlé
A. Short

• Local Organizing Committee:

D. Baade
I. Bronnert
M. Fabricius
E. Hummel
C. Stoffer
