

## Stellar systems in high density environments

ESO Garching, Germany  
27 June–01 July 2011

An ESO workshop to discuss recent observational progress in our understanding of stellar systems in the nearby clusters Fornax, Virgo, Coma et al., and provide a forum for discussion between theorists and observers on galaxy evolution in high density environments at redshift zero.

### SOC

- Nobuo Arimoto
- Magda Arnaboldi (Chair)
- Michele Cappellari
- Eric Emsellem
- Ken Freeman
- Ortwin Gerhard
- Bill Harris
- John Kormendy
- Harald Kuntschner
- Claudia Maraston
- Lucio Mayer
- Simona Mei
- Sadanori Okamura
- Bianca Poggianti
- Tom Richtler

### LOC

- Magda Arnaboldi
- Lodovico Coccato
- Luca Cortese
- Michael Hilker
- Marina Rejkuba
- Christina Stoffer
