

## ORAL POSTER SESSION 3 - Thursday, June 30, 10:20

No.	SURNAME, Name	Title
3	ARRIGONI BATTIAIA, Fabrizio	The age of star-forming regions stripped from VCC1249 by VCC1226 (M49)
4	BOISSIER, Samuel	Deep UV and optical imaging of Virgo galaxies with HI tails
5	CARTER, David	The spatial distribution and origin of the FUV excess in early-type galaxies
19	HERNANDEZ, Jonatan D.	Dissentangling environmental processes in galaxy clusters
20	HOUGHTON, Ryan	The Fundamental Plane of Abell 1689 compared to Coma
29	LOUBSER, Ilani	Mg2 gradients as a signature of brightest cluster galaxy evolution
34	MONREAL-IBERO, Ana	The interplay of gas and stars in dwarf galaxies of very nearby groups
39	OKAMURA, Sadanori	Observation of Diffuse Intracluster Light in the Coma Cluster
45	ROEDIGER, Joel	The Stellar Populations of Virgo Cluster Galaxies
51	SMITH, Rory	Ram pressure drag - effects of ram pressure on dark matter and stellar dynamics
56	VENTIMIGLIA, Giulia	The kinematics of the intracluster light in the core of the Hydra I cluster
61	YOSHIDA, Michitoshi	Kinematics and excitation of the ram pressure stripped ionized gas of galaxies in the Coma cluster
